Indicators of Economic Progress: The Power of Measurement and Human

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

Glossary of research economics - econterms

The idea that some work hard and pay their income taxes, while others live off this enforced kindness, doing nothing by choice, is untenable. If a universal basic income “liberty's main prerequisite in an age of obsolete labor” is to be legitimate, it cannot be financed by taxing Jill to pay Jack.
