

### **freezing people is not pdf**

Cryonics (from Greek  $\kappa\rho\upsilon\sigma$ , kryos meaning 'cold') is the low-temperature preservation (usually at  $\sim 196$   $^{\circ}\text{C}$ ) of a human corpse, with the hope that resuscitation and restoration to life and full health may be possible in the future. Cryopreservation of humans is not reversible with present technology; cryonicists hope that medical advances will someday allow cryopreserved bodies to be revived.

### **Cryonics - Wikipedia**

Freezing rain is the name given to rain precipitation maintained at temperatures below freezing by the ambient air mass that causes freezing on contact with surfaces.
