

immunology a short course pdf

Immunology is a branch of biology that covers the study of immune systems in all organisms. Immunology charts, measures, and contextualizes the physiological functioning of the immune system in states of both health and diseases; malfunctions of the immune system in immunological disorders (such as autoimmune diseases, hypersensitivities, immune deficiency, and transplant rejection); and the physical, chemical, and physiological characteristics of the components of the immune system in vitro ...

Immunology - Wikipedia

When teaching about the immune response, I use the Immunology Virtual Lab to expose my students to a common laboratory assay, the ELISA (enzyme-linked immunosorbent assay), which detects the presence of a particular antibody in the blood of an individual.

Anaphylaxis Self-Study Course. Anaphylaxis is the most severe form of allergic reaction and is potentially life threatening. Many licensed practical nurses (LPNs) are performing medication administration including immunizations in non-hospital environments (such as schools, clinics, and home care), where they may be expected to manage anaphylaxis.

Some of the short-term physical effects of cannabis use include increased heart rate, dry mouth, reddening of the eyes (congestion of the conjunctival blood vessels), a reduction in intra-ocular pressure, muscle relaxation and a sensation of cold or hot hands and feet and / or flushed face.

Effects of cannabis - Wikipedia

During spring and summer, the habitats of children and ticks overlap. It is therefore not surprising that the full spectrum of tick-borne diseases occurs in children and that some tick-borne agents infect children disproportionately.

Clinical Manifestations of Tick-Borne Infections in Children

Re: VACCINE LEGISLATION. Dear Legislator: My name is Tetyana Obukhanych. I hold a PhD in Immunology. I am writing this letter in the hope that it will correct several common misperceptions about vaccines in order to help you formulate a fair and balanced understanding that is supported by accepted vaccine theory and new scientific findings.
