A strategic nuclear weapon refers to a nuclear weapon which is designed to be used on targets often in settled territory far from the battlefield as part of a strategic plan, such as military bases, military command centers, arms industries, transportation, economic, and energy infrastructure, and heavily populated areas such as cities and towns, which often contain such targets. It is contrast to a tactical nuclear weapon, which is designed for use in battle, as part of an attack with and ...

Real options valuation, also often termed real options analysis, (ROV or ROA) applies option valuation techniques to capital budgeting decisions. A real option itself, is the right "but not the obligation" to undertake certain business initiatives, such as deferring, abandoning, expanding, staging, or contracting a capital investment project.
